

R5 - LEARNING TO TEACH WORKSHOP

Sunday 29 August 2010, 09:00 – 12:00

Organised by the FIP Pharmacy Education Taskforce and the FIP Young Pharmacists Group. Separate registration is required and only possible in addition to registration for the full Congress.

This session features a unique opportunity to learn about the successes and challenges of teaching, from the perspectives of young and senior faculty. Brought back by popularity from last year's Congress, this session will offer attendees a half day of interactive, thought-provoking sessions, with a brainstorming session and panel on concrete action plans to use within their teaching/learning environments. The unique aspect of this session is the rich diversity of faculty from all around the world, with various backgrounds of experiences, and many novel tools to share!

Learning objectives:

At the conclusion of this session, the participants will be able to:

- compare theories of pedagogy used to be an effective educator;
- describe strategies to balance teaching load and research expectations as an academic;
- identify at least three tools that may be used for effective teaching in the classroom;
- formulate strategies for junior/senior faculty development and mentoring.

Chair: Vibhuti Arya, St. John's University College of Pharmacy & Allied Health Professions, USA

Introductions and Overview of Program 9:00-9:10 am

Chair

Young educators in Pharmacy... where do we go from here? 9:10-9:40 am

Vibhuti Arya, PharmD, St. John's University, USA

Majid Ali, Lecturer in Pharmacy Practice, Research Assistant/PhD Candidate

School of Pharmacy, University of Hertfordshire
Tina Brock, Director, EdD, Capacity Building & Performance Improvement,
Management Sciences for Health, USA
Ian Bates, Director, Pharmacy Education Taskforce and Prof, The School of Pharmacy, UK

Tools and Technology for Teaching and Learning 9:40-10:10 am

Majid Ali, UK
Yaman Kaakeh, PharmD, Purdue University School of Pharmacy, USA
Zoe Lim, PhD candidate, University of Nottingham, UK

Coffee Break: 10:15-10:45 am

Creating a Learning Plan for Young Faculty 10:45-11:15 am

Ian Bates, Director, Pharmacy Education Taskforce, UK
Tina Brock, EdD, Management Sciences for Health, USA
Yaman Kaakeh, PharmD, Purdue University School of Pharmacy, USA
Conan MacDougall, PharmD, MAS, BCPS, Associate Professor of Clinical Pharmacy,
University of California San Francisco School of Pharmacy

Problem-Based Learning: A Case Study 11:15-11:45 am

Vibhuti Arya, PharmD, USA
Luther Gwaza, Medicines Control Authority of Zimbabwe, Zimbabwe
Zoe Lim, University of Nottingham, UK

Questions & Answers and Wrap-up 11:45am-12:00 pm
